Hospital Flow Professional Development Program

Delivering the right care, in the right setting, at the right time

April 4-7, 2016 | Cambridge, MA

Areas of focus will include:
- Preventing diversions and overcrowding in EDs
- Smoothing surgical scheduling and downstream patient flow to ICUs and inpatient units
- Reducing the need for regular surge plans and excessive overtime
- Utilizing case management strategies to reduce length of stay for “outliers” with medical conditions
- Calculating the return on investment

Visit ihi.org/Flow or stop by the IHI booth to learn more.
